

Privacy Policy

This document describes the collecting and use policy of the end-user's personal data by the XYZ Anime Player EX application. Be sure to read it if you want to know how the data is being processed, stored and used.

Collecting Data

The application collects the following data:

- User's chat nickname;
- User's messages on the chat;
- User's reviews;
- Application telemetry (e.g. crash logs, events etc)

Gathered information

Gathered telemetry is used to improve the app. The username is used to identify users on the in-application chat and other community-oriented features of the service. The data will never be sold, distributed, or transferred to any third party.

Security

All data is stored securely in a protected storage mechanism and no third party has access to it.
